Hancock voters urged to support proposed amendment to protect state employees' retirement fund

By BRENDA HEATHCOCK
A proposed amendment to protect the state retirement fund will be left up to the voters in the Nov. 4 election.
The outcome of the vote on Resolution 518 will be closely monitored by the approximately 600 area residents who are employed by Hancock County, Bay St. Louis or Waveland governments or the public school systems.
J. D. McCullouch and Lucian Kidd of Bay St. Louis are serving as co-chairmen for the local organization

to get out the vote for the amendment.
"We must protect the retirement trust fund for both those who have already served many years and the future benefits of public employees in the system," McCullouch said.
"I feel Senate Resolution 518 will protect the present funding from being diverted to any other use except for retiree benefits and the administration of the system," he added.
In addition to city, county and public school employees, the Mississippi Public Employees' System includes judicial, highway patrol, junior college and university employees.

"This resolution vitally affects 25,000 retirees and more than 125,000 employees currently working," McCullouch said.
These employees pay six percent of their paycheck to the fund which is matched by their employer by approximately nine percent.
Resolution 519 provides that all assets, proceeds or income of the Public Employee Retirement System of Mississippi and the Mississippi Highway Safety Patrol Retirement System or any successor

All oppose building code at public hearing

By DENA BISNETTE
The final public hearing in a series of informational meetings on the Nov. 4 county building code referendum has shown opposition to any code north of Interstate-10.
If voters approve a code through the referendum, a revised version of the Southern Standard Building Code and accompanying mechanical, electrical, plumbing and fire safety codes will be implemented for all unincorporated parts of the county.
The hearing, sponsored by the Hancock County Planning Commission, attracted about 20 people to Hancock North Central School Tuesday and all of them opposed use of a building code.
Much of the opposition expressed dealt with the cost of permits, how similar the code will be to one used in Harrison County, whether the board of supervisors can change the code requirements once the accompanying inspection system is operational and whether contractors will have to be licensed.
Those four questions and others were directed to two commission members who attended, Herbert "Skip" J. Marsh III and Woodrow

Ladner, along with Commission Attorney John Scaife Jr., County Fire Marshall Jay Marsh, County Inspector Donn Murray and several contractors.
A few questions posed at an earlier hearing were answered by Rocky Hill resident Rodney Reeves, who had attended a meeting at Gulfview Elementary School in Lakeshore last week.
At that hearing, Reeves had been the only person of more than 20 present who had objected to having a building code.
He stated Tuesday that he had contacted three insurance agencies and was told that having a code would not decrease insurance rates.
He also contacted three real estate firms and said he was told that a code would not affect property values.
Murray confirmed Reeves' statements, including an allegation that a grandfather clause would protect the existing substandard buildings the code is designed to prevent.
Reeves and others at the hearing then called the proposed code "a hardship," both for people who can

When HNC students linger on telephone they may be doing homework by computer

By BRENDA HEATHCOCK
Hancock County School District students can now get one-on-one tutoring from an instructional computer.
Through the federally funded Chapter I program, the county school district has acquired a computer program which provides extra assistance when needed for elementary students in reading, math and language skills.
"By providing specific academic assistance in the areas where a student is in most need, this program does what I tried to do as a teacher for years on my own," said Helen Mestayer, Chapter I project coordinator.
Approximately 725 students in the district visit the computer laboratory twice a day, she said.
The program not only provides drills and practice for the students but analyzes the individual responses and can generate a worksheet for areas that need more work, Mestayer added.
"Our program was prepared by curriculum specialists at Stanford University, who began research on the project in the early 1980's," she said.
"The computer assisted program chosen by our staff provides the best individualized instructional program for those students who are low achievers in designated areas," Superintendent Terrell Randolph said.
The success of the program is evidenced by the comparison of last year's achievement test scores to this year's scores, Randolph added.
"The program has also generated a great deal of enthusiasm among

Attorney general's opinion excludes city residents from building code vote

BY DENA BISNETTE
Voters who live in Bay St. Louis and Waveland will not vote in a Nov. 4 referendum on a county building code.
A verbal opinion from Assistant Attorney General Sam Keyes has been obtained by Joseph Gex, a substitute attorney for the Hancock County Board of Supervisors.
In that opinion, Keyes states that the intent of the local and private bill that authorized the referendum was to exclude residents of Bay St. Louis and Waveland from participation in the referendum because the two cities already have a building code.
The bill does not state whether city residents can participate and refers only to "qualified electors."
Gex said Tuesday morning that the verbal opinion would be used if a written opinion can not be obtained by Nov. 4.
Gerald Gex, the board's primary attorney, said he expects to have a written opinion by Friday.
Hancock County Election Commissioner Charles Gottschalk said Tuesday that ballots have already been printed with the referendum included for the city precincts.
However, those ballots can be changed by altering the voting machines for the city precincts and marking out the referendum on the ballots to be used in those precincts.
Gottschalk said he can not begin to alter the ballots until the written opinion is available, since a verbal opinion is considered unofficial.
He said he had been told that the opinion is already written but must be submitted to a committee of assistant attorneys general for discussion and approval.
In addition to the referendum, voters will participate in one special election and one general election as well as deciding which of five proposed amendments should be added to the state constitution.
In addition, Waveland voters will choose aldermen and Democratic Executive Committee members in a city election.

The precincts for the city election and the county election are not the same and Waveland voters will vote in two locations:
All Waveland voters may participate in the city election at Waveland Library on Coleman Avenue, but must report to their respective county precincts to vote in the other races.
The special election is for Justice Court Judge, West District.
The candidates include Barbara Frierson, who has been serving as interim judge since the death of Judge Horatio Frierson Jr., and challengers Al Arnold and J.D. "Tony" Miller.
The general elections includes county school board posts in Beat One and Beat Two, the District Five U.S. Congress race and Mississippi Supreme Court Judge District Two, Post One.
The school board candidates in Beat One include Archie G. Courge and Frank J. Miller.
Beat Two candidates include incumbent Monvel Cuevas, Barbara Dedeaux, David M. Hamilton, Woodrow M. Ladner and Tangle Smith.
The Congressional race includes

incumbent Representative Trent Lott, a Republican, and Democrat Larry J. Albritton.
J. Ruble Griffin is unopposed in the Supreme Court election.
The amendments include creation of an educational trust fund in the state treasury, provisions for the State Treasurer to succeed himself in office, authorization for the Legislature to extend the maximum lease term on some 16th Section lands, creation of a trust fund for the Public Employees Retirement System and provisions for the governor to succeed himself in office with a limitation of two terms.
Only two races in Waveland's city election are contested. They include Ward One alderman and Ward Four alderman.
In Ward One, incumbent Barbara A. Rappold will face Rhonda A. Patton and Woody Pearce.
In Ward Four, the incumbent is Herman Yarborough. He is opposed by Shirley Cox.
Ward Two Alderman Bob Hubbard and Ward Three Alderman Louis Smolensky are unopposed.
Mayor John Longo Jr. is also unopposed in the Democratic

Chamber endorses county code, slates amendments

The Hancock County Chamber of Commerce Board of Directors, at its regular meeting Tuesday night, voted unanimously to endorse the County Building Code and the five amendments to the State Constitution, which all are on the Nov. 4 ballot.
"The purpose of the Hancock County Chamber of Commerce is to promote the general health and welfare of the county," said Dick Thomas, president, "and we feel the building code will upgrade construction standards and ultimately lead to higher property values, while also

protecting residents from unscrupulous contractors and shoddy building practices."
The chamber feels the five amendments to the State Constitution will make Mississippi a better place to live and work, plus insuring a more efficient and progressive government, Thomas continued. Each one has merit, and each one should be approved by the voters.
"The Chamber urges all voters to exercise their constitutional right by getting out and casting their ballots on Tuesday, Nov. 4," he concluded.

Rappold bids for third term

Waveland Ward One Alderman Barbara A. Rappold has announced she will seek a third term in the Nov. 4 Democratic primary. Rappold, of 112 Whispering Pines Drive, teaches computers and physical education at the Pass Christian Middle School, where she also coaches girls' basketball. She has been in public office since 1972, including 10 years as Waveland city clerk. She was first vice president of the Mississippi Clerk's, Assessors and Collectors Association and the now defunct Gulf Coast Municipal Officers Association. She is a former member of Hancock General Hospital's Advisory Committee and the Mississippi Municipal Association's executive committee. "I feel that my many years of experience in city government make

me well suited to know the needs of the people and to act accordingly," Rappold said. Among the major issues the city will face during the next four years are possible annexation of adjoining areas to the city and completion of redistricting, she said. "The First Ward is growing. I see the fire department and police department growing under my eyes every day. They're giving better service. The fire department is up for recertification for a lower classification, which will mean lower insurance rates for residents. "That's what we all try to work for, really—for the people of Waveland to have a few more pennies in their pockets and a few less in the city. Most people are on set incomes. When you take something from their set income, you're taking bread off the table," she said.

Important issues to appear Tuesday on local ballots

Tuesday, Nov. 4, 1986, is General Election Day for qualified electors of Hancock County.

One of the important races for Hancock County voters residing in the western half of the county will be for a Justice Court judge.

Electors will also be voting for a much needed building code in the unincorporated areas of the county.

The lack of a building code has held back Hancock County's growth in the rural areas.

Many residents found in recent years problems in securing loans to purchase or construct a home because of a lack of a building code in the county.

In the county, a race for two school board members will be on the ballot.

There will be five amendments on the ballots for qualified electors throughout the state.

We recommend the passage of all five statewide amendments.

They will appear on the Hancock County ballots in the following order;

—Amendment No. 1, House Concurrent Resolution No. 53. This deals with a trust fund for education from the state's oil and gas severance tax, mineral leases, etc.

—Amendment No. 2 - Senate Concurrent Resolution No. 518. This amendment deals with the placement of the retirement monies of state employees and Highway Patrol employees in a trust.

There are many people involved in this retirement system, such as hospital employees, city, county, law enforcement, etc.

The passage of the amendment would disallow the borrowing of the funds by other agencies.

—Amendment No. 3 - House Concurrent Resolution No. 5. This amendment will allow a governor to succeed himself in office.

This amendment would help our state in the long run, because it takes some time for a governor to become familiar with the office.

A good governor could give an additional full four years of service to our state.

—Amendment No. 4 - Senate Concurrent Resolution No. 513. This amendment would allow our state treasurer to succeed himself in office with no limit on the number of times that he may be elected. Currently the state treasurer can only serve four years.

—Amendment No. 5 - Senate Concurrent Resolution No. 537 - This proposed amendment authorizes the Legislature to extend the maximum lease term for Sixteenth Section lands other than forest and agricultural lands from 25 years to 40 years when such lands are leased for a ground rental, payable annually.

This would enable someone to lease Sixteenth Section property zoned commercial and be able to construct a business and know the lease would be good for 40 years before renegotiations.

On the ballot will also be a Congressional seat for our district.

A copy of the statewide amendments appear on another page of this issue of the newspaper.

Most of all, please be sure to vote on Tuesday.

LETTERS TO THE EDITOR

If it concerns you, it concerns us

Murtagh objects to tax collection changes proposed by Waveland

Dear Sir,

Several years ago the county entered into a countywide reappraisal program that had been ordered by the courts.

In its wisdom, Hancock County, Board of Supervisors decided to use the "In House Method" to appraise the county.

Hiring local citizens, the task was completed in a timely fashion and accepted by the Mississippi State Tax Commission. Not only was the program successful but it saved the taxpayers of Hancock County several hundred thousand dollars.

It also provided a staff of trained mappers and appraisers who maintain the program on a daily basis. Benefits to local citizens has been readily received by attorneys, realtors and the general public as well.

The appraisal program completely changed the operation of the assessing and tax collection offices. It placed a large volume of work on this office which necessitated going to a computer enhanced program.

After a year and a half of trial and error we have established an efficient computer program. Our computer system is the backbone of the entire operation. Because of the flexibility allowed by the technology, we are able to handle all tax collections and tax distributions instantaneously.

Each deputy who collects money has a daily printout of all transactions and must balance to the printout total. All motor vehicle registrations and renewals must be programmed through the Mississippi state network computers system.

Unless this system is used we are unable to renew motor vehicles. This system adopted by the state enables all motor vehicles to be programmed into the state and national network systems, which is beneficial in case of accidents or theft.

One year ago the county entered into an inter-local agreement with the City of Bay St. Louis to collect their ad valorem taxes. Benefits of this program have been enormous. This program not only has saved several thousand dollars of tax money for the citizens but it allows for payment of taxes in one place.

Strict accounting is made of all monies collected on behalf of the city which are distributed on a monthly basis.

The city is charged 2 percent for collection. It relieves them of the collection of taxes. The county furnishes a land roll, tax receipts, notices to taxpayers on all ad valorem taxes, including real, personal, public utilities, mobile, homes, and additional notices to delinquent taxpayers.

We also conduct their annual tax sale. By paying a fee this allows the city to be relieved of the tax collections and the expenditure of any monies prior to the collection and settlement of taxes for salaries, postage, supplies and those expenses incurred in the collection of taxes. This program also has been well received.

The City of Waveland has maintained its own tax collection department. This office, through the years has rendered to them every assistance in their endeavors. While the law compels us to provide only a copy of the land roll, we go several steps further. Not only do we print their land rolls, both real and personal, we provide their tax receipts, and last year printed their tax notices.

We render any assistance that they feel we can offer. I personally enjoy working for and with the people of Waveland and their elected officials. We do not charge the City of Waveland for our service.

Hancock County has one of the finest assessing and collecting offices in the State of Mississippi. Several officials from other counties have observed our operations and intend to emulate them.

On a recent visit, a computer engineer from NASA, after observing the system, commented that he was impressed that such a small county was effectively engaged in this type of operation, and that it was available for the benefit of the citizens of Hancock County.

We feel that Hancock County has entered the 21st Century as far as assessing and tax collecting are concerned.

Hancock County has become a leader in this endeavor and our efforts have been recognized throughout the state. To deviate from our program would only deter and impair the program and would be a step backward.

In order to further assist the citizens in paying their taxes we have instituted an excellent mailing program. We mail some 7,900 homestead exemption applications annually, a return stamped envelope is provided at no extra cost.

We send out more than 20,000 motor vehicle registration notices annually, a fee of \$1 is charged and the envelope can be used for the return of the remittance to re-register the motor vehicle.

We mail out more than 50,000 real and personal property tax notices with a return envelope for payment of taxes.

Delinquent taxpayers are also notified prior to the tax sale each year.

Our mailing program is designed to assist the taxpayer in paying taxes in the confines of home or office, thus eliminating the necessity of coming to the courthouse.

We have about a 70 percent response to our mailing system. Some citizens do come to the office to discuss their property assessments or taxes and for general assistance or information.

Last Friday was a good night for local high school football teams as it was the first time this season all were winners.

A record number of fans should be on hand Friday night at Bay High's stadium for their Halloween encounter with Hancock North Central.

A total of 14 victories with only one defeat have been compiled by the two teams with the Tigers losing the season opener to Stone County by only two points.

Head Coach Irvin Favre's Hawks' record is unblemished and have been in some very exciting games this season.

Head Coach Cleveland Williams' Tigers have been playing very good ball since their opening loss to the Tomcats who were held to under 100 yards offense, and yet won the game.

There should be a sellout, so we suggest everyone get there early.

The changing of the name of Bay High's complex to J.D. McCullough Field is scheduled for 7:15 before the game.

The Rock-A-Chaws of St. Stanislaus will cross the Bay Friday night to tangle with the Pirates of Pass Christian.

Both teams are hungry for another victory and it should also be an evenly matched game.

The Rock-A-Chaws and Pirates were both victorious last week and are trying to keep the string of victories alive.

Head Coach Vernon Powell of the Rocks and Head Coach Alton Wright of the Pirates both will be trying to keep the momentum going from last week.

Both the game in Bay St. Louis and the one in Pass Christian should be good, and we hope you will be supporting your favorite team. Remember, kickoffs are at 7:30 p.m.

Halloween parties are many in the area for tomorrow and also many youngsters will be trick-or-treating.

We urge all citizens to be extremely cautious while motoring Halloween night.

If you party a lot and drink a little too much, please let someone sober drive you home.

We hope everyone will have a good, sound and safe Halloween.

While on the subject of Halloween, we have noted many decorations in many of the businesses in the area.

A point of interest is the very nice Halloween decorating at the Hancock County Tax assessor-collector's office.

The employees decorate after hours and spend their own money for the supplies.

It seems the offices are decorated for all seasons.

Keep up the good work, ladies.

A little special this year for the Annual Hancock County Fair will be a Flower Show titled "From Sea to Shining Sea".

The Hancock County Fair will be Nov. 5-9 at the Fairgrounds on Longfellow Road.

The flower show is a combined effort of the Bay-Waveland Diamondhead Garden Clubs. A person need not be a member of the clubs to enter the show.

The only requirements are to adhere to the rules and regulations as set forth in the schedule - which is the law of the show.

Pre-registration for Design Entries is no later than Oct. 31 and can be made by calling 467-0621 or 255-1298.

Horticultural entries will be accepted at the Fair Building on Tuesday, Nov. 4 between 2 and 5 p.m. and Wednesday morning before 10 a.m.

A copy of the schedule may be obtained from the Hancock County Home Extension Office.

We hope to see you at the fair.

Saturday is All Saints Day and is observed by many of the residents of this area.

In Bay St. Louis, both Cedar Rest and St. Mary's cemeteries look very good this year.

Bay St. Louis with assistance from Hancock Bank recently did a fine cleaning job of Cedar Rest Cemetery.

A combined effort by the Knights of Columbus and Knights of Peter Claver and several volunteers have also done a fine job at St. Mary's Cemetery in time for All Saints Day.

We know Waveland Cemetery as well as others throughout the county have also been cleaned in preparation for the holy day observance.

Senator Taylor supports Constitutional Amendments

Senator Gene Taylor of Bay St. Louis urges all voters to take the time to vote on the five proposed amendments to the Mississippi Constitution which will be on the ballot in the Nov. 4 General Election.

"These are five very important proposals which affect the lives of every Mississippian. If they are approved by the voters, then they become part of our state constitution," Taylor explained.

He noted that two amendments deal with education, two with succession of office for elected officials, and one with public employees' retirement.

"Resolution 35 creates an educational trust fund in the State Treasury with the income to be used only for elementary, secondary, vocational or technical education. Paid into the trust fund would be the state's share of severance taxes on oil and gas production on state-owned minerals, certain other income from state-owned oil and gas properties, and funds from certain other sources such as gifts or appropriations from the Legislature," Taylor said.

He noted that the \$18.5 million in the present special fund whose income comes from the state's share of oil and gas severance taxes from state-owned lands will be transferred into the new trust fund.

"Although a trust fund allows only the interest to be spent, this should grow each year and will be a steady source of money which we can devote to the education of the children of the state," Taylor said.

He explained that the other proposal dealing with education is Resolution 537 which authorizes the Legislature to extend the maximum lease term on 18th Section land other than forest and agricultural from 25 to 40 years when the land is leased for a ground rental paid annually.

"Income from these leases is used

for education. By increasing the length of the lease, it increases the value of the land because many banks currently will not finance construction on land with leases of 25 years," Taylor explained.

"Resolution 5 allows a governor to succeed himself in office but stipulates a person may be elected governor no more than twice, and Resolution 513 allows the state treasurer to succeed himself in office with no limit on the number of terms," Taylor said.

"Resolution 518 places in trust all the assets and income of the Public Employees Retirement System and the Highway Safety Patrol Retirement System for the sole purpose of paying administrative expenses and providing benefits to members," he added.

Precinct workers named for Nov. 4 election

ETV Brief

SOYBEAN DECLINE

The production of soybeans has dropped severely in the past seven years, from 4.3 million acres planted in 1979 to two and a half million in 1986.

"Farmweek" reporters will examine the fall in price and production of soybeans in a program to air on Mississippi ETV at 7:30 p.m. Monday, Nov. 3.

They will discuss some of the reasons for the decline and how it will affect the state's agricultural economy in the future.

AAA Mississippi offers Halloween safety tips for trick-or-treaters

JACKSON—As the magical autumn ritual of Halloween approaches, when ghosts, goblins and witches stalk the neighborhoods in search of treats, AAA Mississippi reminds parents and motorists that the most frightening part of Halloween is the increased potential for automobile accidents involving young pedestrians.

Traffic Safety Manager George Scheffel cautioned that, first and foremost, children should be dressed in highly visible costumes. "If possible, parents should utilize retro-reflective materials which are visible at nearly twice the distance of white cloth," said Scheffel.

AAA also asks area parents to remind their youngsters of basic safety rules. Parents or an older sibling should accompany younger children on their trick-or-treat rounds, providing for safe street crossings, and keeping the children from darting between parked cars.

Trick-or-treating should be done in familiar neighborhoods with a predetermined route. Pick streets that are well-lighted and stop only at homes which have outside lights on. Children should walk on the sidewalk; however if there are no

sidewalks available, children should walk facing traffic.

AAA Mississippi warns motorists to be ready for the unexpected while driving on Halloween night. Headlights should be cleaned and turned on at dusk. Drive carefully, limiting speed on residential streets to 15 miles per hour between 5 and 10 p.m. Be alert for children darting out from between parked cars, and be extra cautious making right turns on red; and exciting spaceman or clown may run unexpectedly across the intersection.

TIPS FOR A SAFE HALLOWEEN:

* Try to trick-or-treat when it is still light outside.

* Wear a costume that makes it easy for you to walk, see and be seen.

* If you must go out at night, make certain that your costume is light in color.

* Carry a flashlight so you can see and be seen easily.

* Use reflective tape on your costume so people driving cars can see you.

* Why not use makeup instead of a mask.

* A face mask will keep you from seeing well. Take off your mask

before you cross a street.

* Have a parent, older brother or sister go trick-or-treating with you.

* If someone older cannot go with you, trick-or-treat with a group of children.

* Plan your trick-or-treat route ahead of time. Pick streets that are well-lighted.

* Tell your family on which streets you will be trick-or-treating.

* Cross only at corners. Never cross the street between parked cars or in the middle of the block.

* If there is no sidewalk, walk facing traffic.

* Wait until you get home to sort, check and eat your treats.

TIPS FOR MOTORISTS ON HALLOWEEN:

* Limit your speed to 15 mph on residential streets between 5 and 10 p.m.

* Make sure your headlights and windshield are clean so you can see clearly.

* Be alert for children darting out from between parked cars.

* Use extra caution when pulling into or backing out of driveways and alleys.

* Come to a complete stop before making a right turn on red.

Common Cause endorses succession amendments

Common Cause/Mississippi urges all Mississippians who support good government to vote in favor of the proposed constitutional amendments which would allow the governor and treasurer to succeed themselves.

Calling the present one-term limitations archaic, Paul M. Neville, Common Cause state president, urged

support for the amendments as a step toward executive branch accountability.

"As it stands now, once a governor is elected, he is insulated from public opinion because his policies will not be tested again at the ballot box," he said.

Neville also pointed out that "when a governor offers himself for

reelection, it allows the people to express dissatisfaction and turn him out. This factor is often overlooked in the discussion of the merits of succession."

Common Cause is a citizens' lobbying organization dedicated to working for more open and accountable government.

Eyes on Mississippi

By Bill Minor

JACKSON—Seldom have Mississippians been given a chance to establish a major, new public policy on the order of the constitutional amendment on the Nov. 4 ballot to create an education trust fund.

This is an historic move which someday could produce the added measure of enrichment of public education that has long been the dream of those who believe the public schools hold the key to Mississippi's economic salvation.

Essentially, the trust fund is aimed at channelling revenues derived from state owned lands on a depletable natural resource—oil and gas—into the state's greatest human resource: namely, its children.

There is something of a pot-of-gold-at-the-end-of-the-rainbow theory behind the trust fund. The dream is that the 640,000 acres of waterbottoms owned by the state beneath Mississippi Sound will someday yield a bonanza in oil and gas money for the education trust.

Having seen it happen in next-door Alabama where that state got a half billion dollars from one lease of waterbottoms in Mobile Bay after discovery of a major gas field three years ago, many Mississippians are inspired by the prospects that offshore riches await this state.

Actually the trust fund idea was first conceived by Gov. William Winter when he made his fight to establish public kindergartens and bring about major education reforms in 1961 and 1962.

Winter had proposed that the state's oil and gas severance tax, which had not been increased from its 6 percent rate set back in 1944, be raised 2 percent, and the proceeds put into a trust fund primarily for kindergartens. At the time the prices being paid for Mississippi natural gas and oil had reached astronomical heights.

Winter was never able to put through the severance tax increase against the formidable oil and gas industry legislative lobby.

However, when the Education Reform Act was finally passed in the December, 1982 "Christmas miracle," lawmakers did establish a statutory trust fund to which oil and gas revenues from state-owned lands would be dedicated.

But the strong anti-kindergarten forces succeeded in writing into the bill the requirement that only half of the trust fund proceeds could be spent for education, and half for the nebulous purpose of "economic development."

When the move was launched in 1986 legislative session to put the trust fund into the state constitution, the battle came down to eliminating "economic development" and

limiting the fund use to public education.

In what was viewed as a major victory for education reformers, the Legislature agreed to dedicate the trust fund to elementary and secondary education, and/or for vo-tech education.

The amendment also preserves the initial concept of the trust fund proposed by Winter, that the principal in the trust fund could not be appropriated by the Legislature, only the interest on investments of the fund.

A significant omission has been detected in the amendment since it was adopted in the 1985 session. It makes no specific provision for dedicating to the trust fund money paid to the state by the federal government from oil/gas development on the Continental Shelf.

Tragically, the \$14 million Mississippi got earlier this year from settlement of the long-standing litigation between the federal government and the coastal states over oil/gas exploration on the contested Continental Shelf zone was very quickly tossed into the state general fund and used toward balancing the 1986-87 budget.

Education forces were given no opportunity to stop use of the \$14 million federal windfall for general state purposes rather than for the education trust fund.

Even financially strapped Louisiana, which got \$600 million out of the off-shore settlement, reserved \$600 million for its education trust fund. A clever maneuver by U.S. Sen. Bennett Johnston (D-La.) prevented the Louisiana Legislature from getting its hands on the money during the 1986 regular session.

Because Mississippi stands to get additional federal funds from the Continental Shelf agreement, education forces in the Legislature plan to seek a declaration of legislative intent that future allotments will go to the education trust fund.

The amendment exempts "monies derived from sixteenth section (school) lands." Therein lies an interesting question for future debate. The 16th sections are actually owned by the state, but oil/gas royalties on 16th sections have always been retained by the counties where they are located.

There is an open-end provision in the amendment for the Legislature to direct "any other sources" of money to the trust fund other than those specifically dedicated to it.

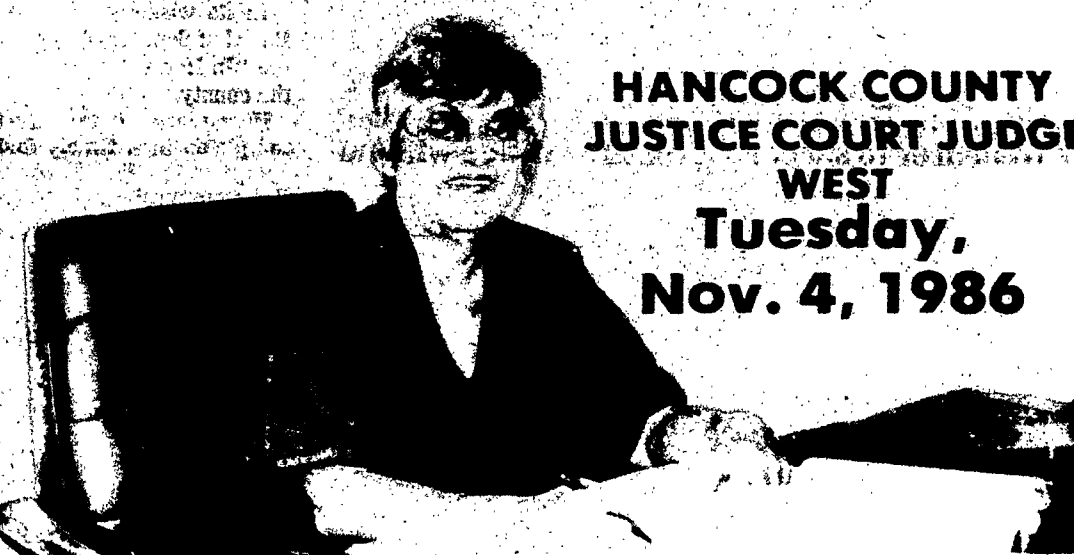

Some hope this will become the vehicle for the Legislature to earmark a substantial portion of all state oil and gas severance taxes for the education trust fund as a continuing source of revenue.

Woodrow Ladner seeks school board seat

WOODROW LADNER

Hancock County native Woodrow Ladner of Catahoula Community is seeking the Beat Two seat on the Hancock County School District Board of Trustees.

Ladner, who was born and reared in the Fenton-Dedeaux area, is night auditor for Diamondhead Inn where he has served in that post since 1971.

He will appear on the Nov. 4 General Election ballot as No. 36.

Ladner is a former member of the school board, having served as Beat Four representative from 1978-1982.

District lines have since been redrawn, placing Ladner's Cuevas Town Road residence in District Two.

He is married to the former Doris Cuevas of Catahoula and they have six sons and one daughter, all of whom hold degrees from Mississippi universities and colleges.

"During my previous term I was a staunch advocate of teacher accountability and staff development," Ladner pointed out.

"However, in my opinion teacher accountability as now mandated by the state serves only to take the

teacher out of the classroom with mountains of paperwork rather than have them accountable for what they do in the classroom," the candidate stated.

"I think we should develop a local system of evaluating a teacher's work through testing of the students to see how much they have learned," Ladner added.

"I appreciate having had the

privilege of serving the people and the children of Hancock County during my previous six years on the school board," Ladner said, adding, "and now that people are so much more conscious of the value of education, I would like very much to have another opportunity to improve the quality of education in our county."

Patton announces Ward One candidacy

Rhonda Aime Patton of Waveland has announced her candidacy for Ward One alderman in the Nov. 4 city election.

"I have chosen to run for the office of alderman because I feel we need dedicated, concerned and caring public officials to work toward the betterment of our community," the candidate said.

"As a lifelong resident of Bay St. Louis and Waveland, I have a sincere interest in improving the quality of life for the citizens of Waveland and our future generations."

Patton, 28, has resided in Waveland since 1979. She has served as Hancock County Justice Court Clerk since January 1984. Prior to becoming clerk, she worked for four years as a legal secretary.

The candidate is a graduate of Our Lady Academy and attended University of Southern Mississippi-Gulf Park in Long Beach.

Patton serves as chair for the Mississippi Justice Clerks Association Board of Directors and is a member of Jaycees and St. Clare Catholic Church.

She is the daughter of Edmond V. "Gus" Aime and Janet Breland

RHONDA A. PATTON

Aime and is married to Danny L. Patton. The Pattons have three children, Chad Patton, age nine; Danny Patton, eight; and Rachel Patton, four.

Dedeaux announces county school board candidacy

BARBARA DEDEAUX

Ten-year veteran of the education system, Barbara Dedeaux of Catahoula, has announced her candidacy for the Hancock County School Board District III seat.

"I plan to use my experience and expertise in the field of education to help develop a curriculum that meets the needs of all children in the school district," she said.

Dedeaux believes being involved with education for so long has enabled her to learn more what youth need in order to succeed.

"I have an open and understanding mind and know what's going on in school systems," she added.

Priority goals include building a better communication system between parents, teachers, administration and school board members and urging support of the school board for "teachers' efforts to teach children."

Dedeaux holds a masters' degree in education from the University of Southern Mississippi and a bachelors' degree from Roosevelt University in Chicago, Ill.

She is currently a member of several boards, including the Pearl River County Credit Union, the Pearl River Association for Retarded Citizens and Mississippi Action for Progress.

She serves as president for both the Bay St. Louis Association of Educators and the Gulf Coast Region of the Mississippi Association of Educators.

A native of Catahoula, Dedeaux is the granddaughter of Willie Sellers of Catahoula.

She and her husband David have three children.

Dedeaux attends the Little Providence Baptist Church.

Diamondhead Little Theater production opens Wednesday

Diamondhead Little Theater is putting the final touches on their production of "Everybody Loves Opal" written by John Patrick.

The play opens on Wednesday, Nov. 5 with performances on Nov. 6 and 7.

The title character, Opal, is a fit-tish lady who lives alongside the city dump, and is a collector of other people's discarded "treasures."

She totes her finds home in her little red wagon. Opal views the world through rose colored glasses, she is an incurable optimist.

Opal takes in three boarders, one of whom she has befriended on the street.

Gloria, Brad and Sol are slightly seedy characters who are on the lam, and Opal's house seems the perfect hideout.

They come up with what seems to them to be the perfect Get Rich Quick scheme. They take Opal in as a business partner and have her heavily insured, with themselves as the beneficiaries.

All they have to do then is arrange for her quick and accidental demise. Things do not turn out quite as they plan however.

The part of Opal Kronkie is played by Diamondhead resident Mac Currid whose last appearance for the Diamondhead Little Theater was as the lead in "Never Too Late."

Currid's acting career goes back to Champagne, Ill and Boston, where she performed in theater and on television.

She had her own children's show in Champagne titled "Olive Lives Here."

The three would be murderers are played by Ricky Thorp, Benny Mistretta, and Elizabeth Hart.

Thorp is a Diamondhead resident, and has appeared in "Pajama Tops" and "Here Lies Jeremy Troy."

Mistretta is a Diamondhead resident also, this will be his debut performance. He is an active member and officer of the Krewes of Diamondhead.

Elizabeth Hart is a Pass Christian resident and has performed with the Waveland Players as well as Diamondhead's last production, "Pajama Tops."

Two supporting roles will be played by Diamondhead residents, Guy King and Shawn Acker.

King has performed before with the New Orleans Gridiron Club, however this is his first local performance.

Acker is a junior at St. Stanislaus and is appearing on stage for the first time. He has been part of the stage crew in the past.

The director, Barbara Dickerson, is no newcomer to the stage either. She has been in theater for many years. She last directed "Cat on a Hot Tin Roof" and played the lead in "Mary Mary" for the Bay St. Louis Little Theater.

Reservations for the three performances are required, as seating is limited.

Ticket prices are \$17.50 per person and include dinner and the play.

The Country Club is open for cocktails at 5:15 p.m., with dinner being served at 6:30 p.m.

Curtain is 8 p.m.

Tickets are available at the Diamondhead Country Club executive offices, or by calling 255-1814 or 255-2697.

A GOOD-BYE KISS—The stage gives a good-bye kiss to a character in the Diamondhead Little Theater production of "Everybody Loves Opal" on Wednesday. The Diamondhead Little Theater production was performed by and displayed by the department's staff after hours. (Staff photo by Mike Cuevas).

TEXT OF PROPOSED CONSTITUTIONAL AMENDMENTS

SENATE CONCURRENT RESOLUTION NO. 513

A CONCURRENT RESOLUTION TO AMEND SECTION 134, MISSISSIPPI CONSTITUTION OF 1890, TO PERMIT THE STATE TREASURER TO IMMEDIATELY SUCCEED HIMSELF IN OFFICE.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI, TWO-THIRDS OF THE SENATE AND HOUSE OF REPRESENTATIVES CONCURRING THEREIN, WHICH TWO-THIRDS CONSISTS OF NOT LESS THAN A MAJORITY OF THE MEMBERS ELECTED TO EACH HOUSE, That the following amendment to the Mississippi Constitution of 1890 be submitted to the qualified electors of the state for ratification or rejection at an election to be held on the first Tuesday after the first Monday of November, 1988:

Amend Section 134, Mississippi Constitution of 1890, to read as follows:

Section 134. A State Treasurer and an Auditor of Public Accounts shall be elected as herein provided, who shall hold their office for the term of four (4) years, and shall possess the same qualifications as required for the Secretary of State. They shall receive such compensation as may be provided by law.

BE IT FURTHER RESOLVED, That the Secretary of State is hereby directed to give public notice of an election in the manner and for the time provided by Section 273 of the Mississippi Constitution of 1890, and an election is hereby called and fixed to be held on the first Tuesday after the first Monday in November, 1988, for the purpose of submitting this and other amendments to the Constitution to qualified electors of this state for approval or rejection, such election to be conducted and held as provided by law for statewide general elections.

ADOPTED BY THE SENATE, January 22, 1986.

ADOPTED BY THE HOUSE OF REPRESENTATIVES, February 11, 1986.

SENATE CONCURRENT RESOLUTION NO. 537

A CONCURRENT RESOLUTION PROPOSING AN AMENDMENT TO SECTION 211, MISSISSIPPI CONSTITUTION OF 1890, TO EXTEND THE MAXIMUM LEASE TERM FOR SIXTEENTH SECTION LANDS OTHER THAN FOREST AND AGRICULTURAL LANDS.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI, TWO-THIRDS (2/3) OF THE HOUSE OF REPRESENTATIVES AND THE SENATE CONCURRING THEREIN, WHICH TWO-THIRDS (2/3) CONSISTS OF NOT LESS THAN A MAJORITY OF THE MEMBERS ELECTED TO EACH HOUSE, That the following proposed amendment to the Mississippi Constitution of 1890 be submitted to the qualified electors of the state for ratification or rejection at an election to be held on the first Tuesday after the first Monday of November, 1988:

Amend Section 211, Mississippi Constitution of 1890, to read as follows:

Section 211. The Legislature shall enact such laws as may be necessary to ascertain the true condition of the title to the sixteenth section lands in this state, or lands granted in lieu thereof, in the Chocoma Purchase, and shall provide that the sixteenth section lands reserved for the support of township schools, except as hereinafter provided, shall not be sold nor shall they be leased for a longer term than ten (10) years for lands situated outside municipalities and for lands situated within municipalities for a longer term than ninety-nine (99) years, for a gross sum; provided further, that existing leases of the sixteenth section lands situated in the municipalities of the state may, for a gross sum, be extended for a term of years not exceeding ninety-nine (99) years from the date of such extension, but the Legislature may provide for the lease of sixteenth section lands for a term of years not exceeding twenty-five (25) years for forest and agricultural lands and not exceeding forty (40) years for all other classifications of such lands for a ground rental, payable annually, and in the case of uncleared lands may lease them for such short terms as may be deemed proper in consideration of the improvement thereof, with right therefor to lease for a term or to hold on payment of ground rent; provided however, that land granted in lieu of sixteenth section lands in this state and situated outside of the county, holding, or owning same may be sold and the proceeds from such sale may be invested in a manner to be prescribed by the Legislature; but provided further, however, that the Legislature, for industrial development thereon, may authorize the sale, in whole or in part for a gross sum or otherwise, of sixteenth section lands, or lands granted in lieu thereof situated within the county, and the Legis-

lature shall either provide for the purchase of other lands within the county to be held for the benefit of the township schools in lieu of the lands sold or shall provide for the investment of the proceeds of such sale for the benefit of the township schools, or the Legislature may provide for both purchase of other lands to be so held and investment of proceeds for the benefit of the township schools; and the Legislature, for industrial development thereon, may authorize the granting of leases on sixteenth section lands, or lands granted in lieu thereof, in whole or in part, for a gross sum or otherwise, for terms not to exceed ninety-nine (99) years, and the Legislature shall provide for the investment of the proceeds of such leases for the benefit of the township schools. The Legislature may authorize the lease of not more than three (3) acres of sixteenth section lands or lands granted in lieu thereof for a term not exceeding ninety-nine (99) years for a ground rental, payable annually, to any church, having its principal place of worship situated on such lands, which has been in continuous operation at that location for not less than twenty-five (25) years at the time of the lease.

BE IT FURTHER RESOLVED, That the Secretary of State is hereby directed to give public notice of an election in the manner and for the time provided by Section 273 of the Constitution, for the purpose of submitting this and other proposed amendments to the Constitution to the qualified electors of this state for ratification or rejection, such election to be conducted and held on the first Tuesday after the first Monday of November, 1988, in the manner provided by law for statewide general elections.

ADOPTED BY THE SENATE, February 5, 1986.

ADOPTED BY THE HOUSE OF REPRESENTATIVES, March 10, 1986.

HOUSE CONCURRENT RESOLUTION NO. 5

A CONCURRENT RESOLUTION PROPOSING AN AMENDMENT TO SECTION 116, MISSISSIPPI CONSTITUTION OF 1890, TO PROVIDE THAT THE GOVERNOR SHALL BE ELIGIBLE TO SUCCEED HIMSELF IN OFFICE FOR ONE ADDITIONAL TERM.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI, TWO-THIRDS OF THE HOUSE OF REPRESENTATIVES AND SENATE CONCURRING THEREIN, WHICH TWO-THIRDS (2/3) CONSISTS OF NOT LESS THAN A MAJORITY OF THE MEMBERS ELECTED TO EACH HOUSE, That the following proposed amendment to the Mississippi Constitution of 1890 be submitted to the qualified electors of the state for ratification or rejection at an election to be held on the first Tuesday after the first Monday of November 1988:

Amend Section 116, Mississippi Constitution of 1890, to read as follows:

Section 116. The chief executive power of this state shall be vested in a Governor, who shall hold his office for four (4) years. Any person elected to the office of Governor shall be eligible to succeed himself in office. However, no person shall be elected to the office of Governor more than twice, and no person who has held the office of Governor or has acted as Governor for more than two (2) years of a term to which another person was elected shall be elected to the office of Governor more than once.

BE IT FURTHER RESOLVED, That the Secretary of State is hereby directed to give public notice of an election in the manner and for the time provided by Section 273 of the Constitution, for the purpose of submitting this and other proposed amendments to the Constitution to the qualified electors of this state for approval or rejection, such election to be conducted and held on the first Tuesday after the first Monday of November 1986, in the manner provided by law for statewide general elections.

ADOPTED BY THE HOUSE OF REPRESENTATIVES, January 8, 1986.

ADOPTED BY THE HOUSE OF SENATE, January 21, 1986.

SENATE CONCURRENT RESOLUTION NO. 518

A CONCURRENT RESOLUTION PROPOSING AN AMENDMENT TO ARTICLE 14 OF THE MISSISSIPPI CONSTITUTION OF 1890 TO ADD A NEW SECTION, TO BE DESIGNATED AS SECTION 272A, TO PROVIDE THAT ALL ASSETS, PROCEEDS OR INCOME OF THE PUBLIC EMPLOYEES' RETIREMENT SYSTEM OF MISSISSIPPI AND THE MISSISSIPPI HIGHWAY SAFETY PATROL RETIREMENT SYSTEM SHALL BE HELD, INVESTED OR DISBURSED FOR THE EXCLUSIVE PURPOSE OF PROVIDING BENEFITS, REFUNDS AND ADMINISTRATIVE EXPENSES UNDER THE

MANAGEMENT OF THE BOARD OF TRUSTEES OF THE SYSTEMS, AND SHALL NOT BE DIVERTED TO OTHER PURPOSES, AND TO PROVIDE THAT LEGISLATION SHALL NOT BE ENACTED INCREASING BENEFITS UNDER THE PUBLIC EMPLOYEES' RETIREMENT SYSTEM AND THE HIGHWAY SAFETY PATROL RETIREMENT SYSTEM UNLESS FUNDS ARE AVAILABLE THEREFOR OR CONCURRENT PROVISIONS ARE MADE FOR FUNDING SUCH INCREASE.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI, TWO-THIRDS (2/3) OF THE SENATE AND THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN, WHICH TWO-THIRDS (2/3) CONSISTS OF NOT LESS THAN A MAJORITY OF THE MEMBERS ELECTED TO EACH HOUSE, That the following proposed amendment to the Mississippi Constitution of 1890 be submitted to the qualified electors of the state for ratification or rejection at an election to be held on the first Tuesday after the first Monday of November 1988:

Amend Article 14 of the Mississippi Constitution of 1890, by adding a new section, to be designated as Section 272A, to read as follows:

"Section 272A. (1) All of the assets, proceeds or income of the Public Employees' Retirement System of Mississippi and the Mississippi Highway Safety Patrol Retirement System or any successor systems, and all contributions and payments made to the systems to provide for retirement and related benefits shall be held, invested as authorized by law, or disbursed as in trust for the exclusive purpose of providing for such benefits, refunds and administrative expenses under the management of the board of trustees of the systems, and shall not be encumbered for or diverted to any other purposes.

(2) Legislation shall not be enacted increasing benefits under the Public Employees' Retirement System of Mississippi and the Mississippi Highway Safety Patrol Retirement System in any manner unless funds are available therefor, or unless concurrent provisions are made for funding any such increase in accordance with a prior certification of the cost by the board of trustees of the systems based on accepted actuarial standards."

BE IT FURTHER RESOLVED, That the Secretary of State is hereby directed to give public notice of an election in the manner and for the time provided by Section 273 of the Constitution, for the purpose of submitting this and other proposed amendments to the Constitution to the qualified electors of this state for ratification or rejection, such election to be conducted and held on the first Tuesday after the first Monday of November 1986, in the manner provided by law for statewide general elections.

ADOPTED BY THE SENATE, March 28, 1985.

ADOPTED BY THE HOUSE OF REPRESENTATIVES, March 28, 1985.

HOUSE CONCURRENT RESOLUTION NO. 35

A CONCURRENT RESOLUTION PROPOSING AN AMENDMENT TO THE MISSISSIPPI CONSTITUTION OF 1890, BY ADDING A NEW SECTION TO CREATE IN THE STATE TREASURY A TRUST FUND WHICH MAY BE USED FOR EDUCATIONAL PURPOSES; TO PROVIDE THAT THERE SHALL BE DEPOSITED IN SUCH TRUST FUND THE STATE'S SHARE OF OIL AND GAS SEVERANCE TAXES FROM STATE-OWNED LANDS AND SEVERED STATE-OWNED MINERALS, MONIES RECEIVED BY THE STATE FROM THE DEVELOPMENT, PRODUCTION AND UTILIZATION OF OIL AND GAS RESOURCES UNDER STATE-OWNED LANDS AND FROM SEVERED STATE-OWNED MINERALS WITH THE EXCEPTION OF CERTAIN PORTIONS THEREOF, MONIES MADE AVAILABLE FROM GIFTS, DONATIONS AND GRANTS, AND ALL SUCH MONIES FROM ANY OTHER SOURCE AS THE LEGISLATURE SHALL, IN ITS DISCRETION, SO APPROPRIATE OR SHALL, BY GENERAL LAW, SO DIRECT TO PROVIDE THAT THE PRINCIPAL OF THE TRUST FUND SHALL REMAIN INVOLATE; AND TO PROVIDE THAT INTEREST AND INCOME FROM INVESTMENT OF THE PRINCIPAL OF THE TRUST FUND MAY BE EXPENDED EXCLUSIVELY FOR THE EDUCATION OF THE ELEMENTARY AND SECONDARY SCHOOL STUDENTS AND/OR VOCATIONAL AND TECHNICAL TRAINING IN THIS STATE UPON A MAJORITY VOTE OF THE ELECTED MEMBERSHIP OF EACH HOUSE OF THE LEGISLATURE.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI, TWO-

THIRDS (2/3) OF THE HOUSE OF REPRESENTATIVES AND THE SENATE CONCURRING THEREIN, WHICH TWO-THIRDS (2/3) CONSISTS OF NOT LESS THAN A MAJORITY OF THE MEMBERS ELECTED TO EACH HOUSE, That the following proposed amendment to the Mississippi Constitution of 1890 be submitted to the qualified electors of the state for ratification or rejection at an election to be held on the first Tuesday after the first Monday of November 1988:

Amend Article 8 of the Mississippi Constitution of 1890 by adding a new section, to be designated as Section 206A, to read as follows:

"Section 206A. There is hereby created and established in the State Treasury a trust fund which may be used, as hereinafter provided, for the improvement of education within the State of Mississippi. There shall be deposited in such trust fund:

(a) The state's share of all oil severance taxes and gas severance taxes derived from oil and gas resources under state-owned lands and from severed state-owned minerals; (b) Any and all monies received by the state from the development, production and utilization of oil and gas resources under state-owned lands or from severed state-owned minerals, except for the following portions of such monies:

(i) All mineral leasing revenues specifically reserved by general law in effect at the time of the ratification of this amendment for the following purposes: (A) management of a state leasing program; (B) clean-up, remedial or abatement actions involving pollution as a result of oil or gas exploration or production; (C) management or protection of state waters, land and wildlife; or (D) acquisition of additional waters and land; and

(ii) Monies derived from sixteenth section lands and lands held in lieu thereof or from minerals severed from sixteenth section lands and lands held in lieu thereof; and

(iii) Monies derived from lands or minerals administered in trust for any state institution of higher learning or administered thereby by the head of any such institution;

(c) Any gift, donation, bequest, trust, grant, endowment or transfer of money or securities designated for said trust fund; and (d) All such monies from any other source whatsoever as the Legislature shall, in its discretion, so appropriate or shall, by general law, so direct.

The principal of the trust fund shall remain inviolate and shall be invested as provided by general law. Interest and income derived from investment of the principal of the trust fund may be appropriated by the Legislature by a majority vote of the elected membership of each house of the Legislature and expended exclusively for the education of the elementary and secondary school students and/or vocational and technical training in this state."

BE IT FURTHER RESOLVED, That the Secretary of State is hereby directed to give public notice of an election in the manner and for the time provided by Section 273 of the Constitution, for the purpose of submitting this and other proposed amendments to the Constitution to the qualified electors of this state for ratification or rejection, such election to be conducted and held on the first Tuesday after the first Monday of November 1986, in the manner provided by law for statewide general elections.

ADOPTED BY THE HOUSE OF REPRESENTATIVES, February 15, 1985.

ADOPTED BY THE SENATE, March 13, 1985.

News Brief

HISTORIAN WITH A BRUSH

At an age when most of her contemporaries were content to start slowing down, Alice Moseley of Plum Creek began a new career.

At the age of 60, she began painting. Untrained and uneducated in art history, the retired schoolteacher taught herself and used her brush and acrylics to illustrate childhood stories and personal experiences that had impacted her life.

Now, at age 76, she has earned the respect of the Southern art world and a following of admirers who have been taken with her simple, brilliantly-colored "folk" paintings.

Twenty-seven of Mrs. Moseley's most memorable works are now on display at the University of Mississippi Museums in Oxford. The exhibition contains many personal favorites of the artist, who likes to call herself a "historian with a brush."

"Most of what I paint is in retrospect, of memories and experiences that I have had," Mrs. Moseley said. "I'm kinda wild," she added with a laugh. "I don't conform to any set of art standards. I just paint what I feel."

Bridge lights under repair

Repairs are underway on street lights on the Hancock County side of the Bay of St. Louis Bridge.

The lights should be back in operation within two weeks, according to Joe Davis, district engineer for the Mississippi State Highway Department.

Davis reported wiring for the lights had burned out and the control panel was in the repair shop.

The holdup is a breaker which must be built by the manufacturer before the repairs can be completed, Davis said.

Humane Society, sheriff's department seek missing dog

BY DENA BURNETTE

The Hancock County Humane Society and the Hancock County Sheriff's Department is searching for a dog that bit a small child Wednesday evening.

Although the Humane Society has confirmed that the animal received a rabies shot on Aug. 27 through the Louisiana Society for Prevention of Cruelty to Animals, the dog's mother said she is concerned that the dog may have been injured by another animal because it was limping when last seen.

She said finding the dog will help confirm whether her daughter must undergo a series of shots to prevent rabies.

According to Humane Society Representative Joyce Ohman, the dog is a neutered male West Highland White Terrier, also called a White Scottie, and weighs about 15 pounds. It is wearing a blue plaid collar and a white flea collar.

The animal is most likely to be

seen in the Washington Road area near US-90.

The dog is elderly, about 12 years old, and is on medication, Ohman said. It is also partially blind and has poor hearing. It answers to the name Kilton.

The dog has been missing since Oct. 22, Ohman added.

Anyone with information about the missing dog may contact Ohman at 487-0558, Bookends Bookstore at 487-9823, Hancock County Animal Shelter at 487-0230 or the sheriff's department at 487-5101.

not afford to pay permit fees and for the county, because the funding for implementation will have to come from the county general fund.

According to Scaife, the price of permits will vary according to the value of the proposed building and will eventually pay the expenses of the building code office.

Inspectors will have to have had at least 10 years' experience in their fields and be licensed. In addition,

all contractors will have to be licensed to work in Hancock County before they can be approved by an inspector.

Scaife said the supervisors can enact a building code without a referendum but are not expected to change the code requirements later.

Four people alleged that Harrison County changed its original code to include farm buildings, which are not included in the proposed code for Hancock County.

Two of the four described problems they allegedly had with inspectors in the Lizana Community, one involving leveling a trailer shifted by a storm and one involving a permit being required for a goat shed.

They said they are worried that the supervisors will vote to change the code after implementation.

The referendum on the code will be on Tuesday's ballot along with a special election for Justice Court Judge, west district; a general election for two Hancock County School Board members, District Five; Congressman, Mississippi Supreme Court Judge for District Two, Post One; and five amendments to the State Constitution.

Take the "Tricks" Out of Trick or Treat!

Make this Halloween a fun and safe one. Avoid any Halloween scares by following these simple, but important, safety tips.

- Keep children away from lit jack-o'-lanterns if their costumes are flammable.
- Make sure costumes are not so long that your child could trip on them. Reflective tape should be put on all costumes — especially dark-colored ones. Also, painted faces are better than masks since masks almost always affect vision.
- Instruct children not to eat any treats before you have inspected them carefully. You may want to feed them a good meal and give them several treats before they go trick or treating to help avoid temptation.
- Trick or treat only in well-lighted neighborhoods — preferably only at homes where you know the occupants personally.
- Accompany all small children while trick or treating. Older children, if unchaperoned, should follow a pre-determined route and have a set curfew time.
- Carry a flashlight and walk on sidewalks, not on streets. Do not run between parked cars to cross the streets — cross at corners only after looking both ways for cars. (If there are no sidewalks, walk on the left side of the road facing traffic.)
- Inspect all candy and other treats closely. Candy with torn wrappers or any packaging that looks like it has been tampered with should be immediately thrown away. Fruit should be washed and cut into small pieces before eating.

Don't let the goblins get you — follow these Halloween safety tips!

not only the students, but teachers and parents as well," he said.

The program helps students become self-motivated, keeps their attention and provides immediate feedback, Randolph said.

"Showing a student's progress, the program allows the teacher to provide extra attention and assistance to each individual student's weak areas," he added.

Mestayer emphasized that the program does not replace teachers but compliments and facilitates their work.

"By providing extra practice and drill the program takes a lot of the drudgery from a teacher's job," she added.

The newest addition to the district's computer teaching system is the Dial-A-Drill system, which allows the students to take lessons at home.

In this program the computer calls selected students at home to give extra lessons.

Currently the district utilizes six telephone lines to call approximately 80 students each night but the capacity will be doubled in the next few weeks with the addition of six more lines.

The computer calls one student every 15 minutes from 3:45 to 8:45 p.m.

Utilizing a push button telephone, students are able to reply to the questions asked by the computer in math and reading.

"The time when students participate in the Dial-A-Drill program may be the only time some of them focus on any subject without distractions," Randolph said.

"Shutting the outside world out while working a Dial-A-Drill program enables the students to do critical thinking on their own," he continued.

Critical thinking skills developed in this program will enable students to raise their achievement levels, Randolph said.

Although the computers are currently available only to elementary students, Randolph said within the next few weeks seventh and eighth grade students will have the opportunity to take algebra, English, math, computer literacy and basic computer programming courses.

He also said plans are underway to extend the availability of computer instructional learning to high school students.

School bus, car collide in Waveland

Eight students were sent home after being checked for injuries by a Gulfview Elementary School nurse Monday following a school bus accident on Waveland Avenue.

The driver of a car involved, Lillian A. Fonseca of Waveland, was treated for a minor injury at Hancock General Hospital and released.

The Hancock County Schools bus, driven by Linda B. Rivera, had 41 students on board because its route was not yet complete. When full, the bus carries 83 students.

According to a report from the Waveland Police Department, the

bus was traveling north on Waveland Avenue at about 7:25 a.m. and was waiting for a truck to clear the US-90 intersection before making a left turn.

Fonseca's vehicle, which was traveling east on the highway, hit a rear wheel of the bus, which had

entered the intersection on a green light.

No charges were filed.

The children who complained of injuries were reportedly checked by Mobile Medic personnel at the scene before being taken to the school and turned over to the nurse.

5th ranked HNC Hawks prepared for Halloween battle with Bay Tigers

By BRENDA HEATHCOCK
Climbing again, the Hancock North Central Hawks moved up to No. 5 in the state ranking of high school football teams by the Associated Press.

The 8-0 Hawks are among four undefeated teams in the Top 10.

Leading the poll is Meridian, the defending state 5-A champions. Warren Central, Rosedale and Moss Point are in the next three positions.

This week the Hawks will put their undefeated record and state ranking on the line when they take on county rival, the Bay High Tigers.

"You can throw out the record books when it comes to the Hawk-Bay High game," says Head Coach Irvin Favre.

"This week's game will be exciting and tremendously interesting as two teams square off with only one loss between them," he said.

It is a real credit to football in the county that there is only one loss between these teams who have played a total of 15 games, Favre added.

"With their 6-1 record, there is no doubt that the Tigers play good foot-

ball and I have a lot of respect for them," he said.

Favre commented on the turnaround of events surrounding of this year's game compared to the one last year.

In 1983, the Tigers were ranked 11th in the state, had an undefeated season record but were defeated 20-6 by the Hawks.

This year the Hawks are undefeated and ranked 5th in the state.

Favre said the Hawks are planning to see that the turnaround does not include the win by the underdog this year.

"We will have to do a good job stopping Brian Laneaux and Aaron Whavers to win this week," he added.

Laneaux has had a fine year and is a threat every time the football gets in his hands," Favre said.

Laneaux is also one of the top kickers on the Coast and between running and kicking the ball he is a real offensive threat, he added.

"Whavers is also a fine running back with break-away speed," Favre said.

Defensively, the Tigers are very hard hitting and the Hawks will really have to block to keep them off the ball, he said.

"I don't think our undefeated record scares Bay St. Louis," Favre said.

"I believe both teams think they can win and expect scoring in the game to be low," he said.

Favre said he thinks motivation factors in the game will be revenge for the Tigers and pride for the Hawks.

"There will be two good teams playing Friday night but only one team can be the winner," he said.

"We hope that when it comes down the end of the game we will be able to continue doing the things we have done before to win," Favre stated.

This week's game will not affect the Hawks' status in the district competition.

Regardless of the outcome, the Hawks will play d'Iberville Warriors Nov. 7 for the district championship.

The Hancock vs. Bay High game will begin at 7:30 p.m. on the football field in McCullough Stadium in Bay St. Louis.

Bay, Hancock rivalry win to depend on athletic talent

By DENA BENNETTE

The outcome of Friday's grudge match between the Bay St. Louis Senior High Tigers and the Hancock North Central Hawks will be a matter of which team has the most athletic talent.

Bay High will host fifth-ranked Hancock in a contest that Tiger Head Coach Cleveland Williams said will be Bay's most important game of the 1984 season.

The Tigers are haunted by the ghost of a 20-6 trouncing from the Hawks last year and are planning to get revenge by ending Hancock's undefeated season record on Halloween night.

"This clash will definitely be an exciting one because there are talented athletes on both squads," the coach said.

"In preparing for the Hawks' running game, we know we will have to stop Charles Burton, Delano Lewis, Donald Vince and Brett Favre, who are all good runners and know how to run in an open field."

"As far as their passing ability is concerned, we are faced with one of the best throwing quarterbacks in this section of the state," Williams added.

"This week will be the biggest test for our defensive club all year and we have spent some long hours preparing for it."

The 8-0 Hawks have been averaging more than 21 points per game. On the other side, the 6-1 Tigers' defense has given up only 42 points in seven games, an average of six points per game.

"Defensively, we know our work is cut out for us because Hancock does numerous things so well," Williams said.

"Hancock has an overall solid backfield. If you shut down one back there are two others who can hurt you at any given time."

"I feel that we must be able to shut down at least some of those important things Hancock can do so well and we must try not to have the mental breakdowns we have had in past games."

On offense, the Hawks will have the advantage of speed while the Tigers will be able to rely on power in the backfield.

"We're not as quick as Hancock but we have big backs and they run

with a lot of power," Williams said.

"We have Brian Laneaux, who has been averaging more than 100 yards per game, and Aaron Whavers, who doesn't have the power of Brian but can hurt an opponent with his quick ability to score from any point on the field once he hits the secondary."

"I feel we must be able to establish a balanced attack against the Hawks to be effective," the coach added. "Last year we weren't able to establish a passing game and it hurt us badly."

"This year, we have good receivers including Robert Hargett, Eddie Bourgeois, Dante Curry and Andrew Collins."

"Dwayne Robertson is not a seasoned quarterback like Brett

JUST A SAMPLE—Showing a portion of their catch from a recent evening outing at the Rigolets in Louisiana are Mississippi fishermen Jay Fluriel, left, of Waveland; Carl Thomas of Bay St. Louis, and Rev. Johnny Planea of Our Lady of The Gulf Catholic Church in Bay St. Louis. The trio, fishing along with Tommy and

Johnny Longo of Waveland off Fluriel's camp pier, took some 100 speckled trout. Thomas said the large black drum, foreground, weighed in at 35 pounds. Father Johnny would not verify that figure, however. (Echo staff photo by Edgar Perez)

Wildcats at home for season finale

POPLARVILLE— Pearl River College will finish up its regular season Saturday at home against Southwest.

The PRC Wildcats ran their overall record to 6-3 last week with a 23-14 rain-soaked win over Mississippi Delta. Southwest (3-5-1) dropped a close 15-14 decision to East Central.

Columbia-Lincoln has a lock on first place in the South Division with a perfect 6-0 conference mark and an 8-1 overall ledger. Gulf Coast is in second place with a 4-2 division record and is 6-3 overall.

A Wildcat win this Saturday will tie the Perk Bulldogs for second place in the division. The top two teams from each division will advance to post season playoffs.

For the Wildcats to get into the playoffs, however, Gulf Coast must lose its homecoming game to the Holmes Bulldogs Saturday afternoon.

Gulf Coast and Pearl River victories will put both teams with identical 4-2 and 7-3 marks. But the Bulldogs would get the nod for the playoffs because they won the regular season matchup 9-7 in Biloxi three weeks ago.

Playoff spots in the junior college race is decided first by division record, then overall record and then by head-to-head play.

"We must just think about winning our contest and leave the rest up to the Holmes Bulldogs," said Mike Nelson, the Wildcats' head coach.

Gulf Coast and Holmes will play at 3 p.m. Saturday afternoon. So by the time the Wildcats take the field against the Bears they'll know what is what.

"Southwest has excellent team

speed and quickness," Nelson said. "They will be no pushovers." Nelson said the Bears stunk a lot on defense, but they are smaller than the Wildcats.

"We'll have to use our size and run the ball against them," said Nelson. "The only thing left for us to do is win."

The Wildcats kept their chances alive by scoring 13 points in the final quarter to pull away from stubborn Mississippi Delta 23-14 this past Thursday in Moorhead.

The Wildcats trailed 14-10 going into the final quarter in the rain-soaked contest. Freshman running back Thurman Geathers led the Wildcats with a record-setting 184 yards on 25 carries.

His 54-yard scamper with 2:21 left in the contest iced the PRC win. Geathers' performance puts Georgetown South Carolina back in third place on the all-time single game rushing list.

Bob Collette racked up 224 yards against Southwest in 1980 and Memphis McAbee had 197 yards against Gulf Coast in 1978. L.B. Bullock picked up 182 yards against Northeast in 1983.

Freshman back Darryl Thompson of Bassfield actually put the Wildcats in front with a 64-yard run with 8:05 to go in the game. Thompson finished the night with 111 yards on 11 attempts.

Thompson got his chance to play after starting running back Terry Bruton was hurt early in the first quarter. The Bassfield native had carried the ball only six times during the year.

"Darryl did much better than we thought he could," Nelson said.

HELPING OUT—Bay High Tiger Brian Laneaux (34) assists ballcarrier Aaron Whavers (44) by keeping a St. Martin player out of his way in last week's game, a 9-0 victory for Bay High. This week, Bay High tries for

revenge against the Hancock North Central Hawks, who won the annual grudge match last year. Gametime is 7:30 p.m. at McCullough Field. (Staff photo by Dena Bennett)

Favre but he can get the job done. He has the ability to throw both the long and the short ball. Besides, he is a scrambler and the team looks up to him for his leadership role."

"Our running game is made up of big backs, but they are also good receivers, including Laneaux, Whavers, Mark Haverly, Quentin Bell and Martin Pernicaro. They will see a lot of action in this Friday's contest."

Improvements in the Bay High offensive line are also expected to play a big part in Friday's game.

"Our offensive line has improved with skill people who have a lot of playing time under belts, including Geja Carter, William Ross, Greg Necaise, Jerry Island and Robert Hargett. New members who help provide depth are Courtney Laureys, Doral Nichols, Travis Haynes, Mike LeGros and Eddie Bourgeois," Williams said.

Probable starters on defense this

week include Island and Amadae Collins, tackles; Carter and Hargett, ends; Necaise, Ross, Haverly and Wayne Karl, backs; Curry and Bell, cornerbacks; and Britt Woods, safety.

Offensive starters against the Hawks are expected to include Ross, center; Necaise and Island, guards; Carter and Laureys, tackles; Hargett, tight end; Andrew Collins, wingback; Curry, split end; Laneaux, running back; Haverly, fullback; and Robertson, quarterback.

An additional factor that may make a difference for Bay High is fan support, Williams said.

"We will appreciate it if we can fill the stands Friday and have more fans on the side. Fan support really gives our team a big boost and it does serve as an important factor when the Tigers play," the coach commented.

The game begins at 7:30

FIELD GOAL—Bay High Tiger Brian Laneaux (34) kicks a 30-yard field goal to win the game against St. Martin. Laneaux is among the players expected to start in Friday's game between the Tigers and county rival Hancock North Central. (Staff photo by Dena Bennett)

WETLANDS DIVISION

Norbert Kohnke II having requested permission to perform maintenance dredging of a shallow drainage area known as Lake Serpentine, and to construct a timber pier, was granted authorization by the Commission on Wildlife Conservation at the Sept. 23 meeting.

The Commission was informed of an unauthorized fill project being conducted by Kremer Marine in Gulfport. Kremer Marine submitted an after-the-fact application along with an application fee which was not in compliance with Senate Bill 3005. The Commission directed the staff to seek an opinion from the Attorney General's office in relation to the application fee and report back to the Commission at its October meeting.

The Commission was notified of an unauthorized fill project being conducted by Lakeview Fishing. No action was required at this time by the Commission.

The Commission was also informed of an unauthorized fill project being conducted by the City of Gulfport. No action required at this time by the Commission.

The Commission considered an after-the-fact application by Michael Thompson for conducting work within the coastal wetlands without obtaining a valid permit. The Commission authorized the after-the-fact permit and assessed a fine of \$1,000.00.

Michael Cavanaugh an attorney representing Noel J. Skremetta appeared before the Commission requesting his client to be released of the order by the Commission to remove unauthorized fill material placed within coastal wetlands. The Commission voted to table any action on Cavanaugh's request until the Oct. 1986 Commission meeting.

FISHERIES DIVISION

From Sept. 15 through Nov. 15, Saltwater Fisheries Division biologists will be conducting a massive tagging program in Gulf and state waters. The project, which involves scientists from the National Marine Fisheries Service, Louisiana State University, and the Gulf Coast Research Laboratory, will result in the tagging and release of some 20,000 adult Red Drum during the two-month period. Information obtained from this work will help fisheries scientists evaluate the conditions of Gulf Red Drum stocks.

In conjunction with the tagging study, Saltwater Fisheries Division biologists will assist personnel from the Gulf Coast Research Laboratory and the newly-created Nathan V. Bodie Marine Research Institute to obtain red drum broodstock for the non-profit Cat Island facility. The 100 female red drum will be stocked in a ten-acre pond after being injected with chorionic gonadotropins to induce spawning. It is hoped that these individuals will provide the nucleus for a state red drum stocking effort.

Mississippi shrimp landing for August show yet another decline over last year's harvest. A five-year low of only 720,000 pounds of headless shrimp were landed in this state during the month of August according to Fisheries Division port agents. The annual cumulative total of 6.3 million pounds also lags behind the 8.0 million pounds of 1985, but represents the second highest annual total in the five-year period since 1982.

The prognosis for the 1986-87 Mississippi oyster season is poor. With exceptionally high salinities persisting through the month of September, oyster drill damage has been extensive over most of the state's major oyster reefs. Only St. Joseph's Point, St. Stanislaus, and Waveland reefs are expected to produce in 1986, and then the total projected harvest is not expected to reach the 65,000 sack level of the 1985-86 season.

Tom DanDevender, who has been with the Division of Saltwater Fisheries for some six years, has resigned to take a position as SEAMAP coordinator with the Gulf States Marine Fisheries Commission. Tom has been a definite asset to the Division during his tenure, and we wish him the very best of luck in his new endeavor.

OIL AND GAS ACTIVITIES

In early September, Sapphire Exploration and Production, Inc. of Dallas, Texas terminated the drilling of their offshore exploratory well located in Mississippi's territorial waters 4.5 miles south of Ship Island. Sapphire has moved a drilling rig on-site on Aug. 20, 1986 and initiated drilling on Aug. 22. Fifteen days later the desired drilling depth (5,921 feet) had been reached, and shortly thereafter Sapphire officials announced that the wildcat well was not a producer of oil or gas.

Mr. John Taylor, President of Sapphire, said that Sapphire was disappointed but that admittedly the wildcat well was a longshot, statistically speaking. The \$1 million drilling operation was closed-out on Sept. 9, 1986.

During the period of time well drilling operations were underway, Department of Wildlife Conservation/Bureau of Marine Resources boats were used on numerous occasions in transporting state personnel to and from the drilling rig.

Personnel from the BMR, the Bureau of Pollution Control, State Oil and Gas Board and Bureau of Geology were taken to the rig for purposes of conducting inspections and making operational observations, particularly the inspection of on-rig pollution control procedures and equipment, as well as verifying Sapphire's implementation of required environmental monitoring programs.

During these visits to the rig it was determined that at that time, Sapphire and drilling support personnel were in compliance with Sapphire's National Pollutant Discharge Elimination System (NPDES) permit, and that required measures were being taken to ensure that the environment was not polluted.

URBAN WATERFRONT
The river city waterfront contract is the latest of the Mississippi Commission on Wildlife Conservation's supporting efforts in urban waterfront planning. Moss Point, not unlike other communities facing the Mississippi Sound has experienced a decline in its physical and economic ties with the water, will be studying various ways on which access, recreation, environmental protection and economic incentives can be combined for an improved and active waterfront.

The study will be monitored by the Coastal Program Division of the Bureau of Marine Resources which was funded by "pass through" federal funds of \$24,000 which will be matched with \$6,000 by the City. The waterfront work program will start Oct. 1, 1986 and will include as part of the overall effort a public participation element. For further information contact Coastal Program Chief, Jerry Mitchell of the Bureau of Marine Resources (601) 864-4602.

COASTAL MANAGERS

Coastal Program Division (CPD) Chief, Jerry Mitchell and Resource Analyst, Gary Cuevas attended the National Coastal Program Managers conference held Sept. 22 through 24 in Philadelphia, PA. The meeting was hosted by the Federal Office of Ocean and Coastal Resource Management (OCRM) and was structured to address current problem areas in coastal management. An observation of the conference pointed to the fact that seemingly unique management problems to Mississippi are also common to other states and shared information can help resolve these problems.

BILOXI AWARDED FUNDS

The Seafood Industry Museum through the City of Biloxi was awarded a \$7,500 contract to provide improvements and enhancement of its display through the purchase of audio-visual equipment in addition to its artifact labelling efforts. This action by the Mississippi Commission on Wildlife Conservation through the Bureau of Marine Resources parallels other actions of the Commission, as its support of the floating museum Scranton of Pascagoula.

Both the Museum in Biloxi and the Scranton offer coastal residents and other visitors displays and exhibits that increase the awareness and appreciation of the importance of Mississippi's abundant natural resources as well as the historically strong coastal ties with the seafood industry.

PROJECTS APPROVED

The Office of Ocean and Coastal Resource Management (OCRM) recently approved three construction projects funded through the Bureau of Marine Resources using 306(A) monies. The projects include the Gulf Park Pier Project in Jackson County, the Hancock County Pearlinton Boat Launch and the Courthouse Road Beach and Water Access Improvement project. The Bureau will contribute \$90,000 in 306(A) monies and an additional \$60,000 in Wallop-Breaux funding.

Two other construction projects are scheduled to be approved through OCRM by the middle of October, including the Poppe Ferry Boat Launch Project (\$60,000) and the Hancock County Napoleon Recreation Park (\$60,000).

BAY PAWN

Hwy. 90 across from Henderson Ford. Wednesday thru Saturday

ON SALE OCTOBER 29 THRU NOVEMBER 5

November activities at Davis Bayou listed

A variety of special walks and talks are scheduled for Saturdays during the month of November at the Davis Bayou area of Gulf Islands National Seashore in Ocean Springs. Superintendent Jerry Eubanks announced.

The special programs begin with a photo hike on Saturday, Nov. 1. This 1½ hour program outlines the methods associated with nature photography. Visitors will have an opportunity to put these methods to work under the guidance of a professional photographer.

Visitors should come equipped with their own camera and film, flash attachments and tripods are optional. Persons wishing to attend the program should meet at the Visitor Center on Davis Bayou at 2 p.m.

The special programs continue on Saturday, Nov. 8 at 2 p.m. with a program on kids wilderness survival.

Parents and their children, ages 5-12, are invited to learn about what

to do should they become lost in the woods.

A canoe trip on Stark Bayou is scheduled for Saturday, Nov. 15 at 2 p.m.

Visitors should bring their own canoes and supplies and meet at the

public boat launch at Davis Bayou for this two-hour exploration of the plants and animals living along Stark Bayou. Reservations are required for this program and can be made by calling (801) 875-9057.

Special guided nature walks will

be conducted on the two remaining Saturdays in November, beginning with a woodland community walk on Saturday, Nov. 22. Visitors should meet at the Visitor Center to begin a walk along the "Nature's Way Trail."

The month long series of special programs will conclude on Saturday, Nov. 29 with a marsh walk along Davis Bayou. This nature walk will provide visitors with an opportunity to discover the plants and animals living along the edge of the salt marsh. The trail is accessible to the physically disabled. Meet at the William M. Colmver Visitor Center at 2 p.m.

All of the programs are free of charge and open to the public. "We hope that everyone will be able to take advantage of this opportunity to learn more about the resources of Gulf Islands National Seashore," said Eubanks.

For more information on these and other interpretive activities available through the Visitor Center at Davis Bayou, call (801) 875-9057.

League elects new officers

The Bay Area Dixie Youth Girls Softball League has been reorganized and new officers elected.

They include Mary Perkins, president; Rusty Martin, vice president; Anne Krankey, secretary; Susan Penton, treasurer; and Calvin Smith, local commissioner.

Respectability at stake in Pirate-Rock contest

By EDGAR H. PEREZ

The outcome of Friday night's scheduled inter-county rivalry between the Pass Christian Pirates and St. Stanislaus Rockchaws will carry monumental importance for the two teams who have experienced rather lack-luster seasons thus far.

A win for the Pirates will put them at a more respectable 3-and-6 for the season and leave them in better shape to close out against neighboring Long Beach the following week.

The Rocks are excited about their first win of the season against East Central last week and are most anxious to add another victory going into their final outing of the season next week against the formidable Bay High Tigers.

The Pirates also are fresh off a big win against Vancleave last week, so both teams are coming into tomorrow night's action with strong positive attitudes.

"This should be a real good game," Pirate Coach Alton Wright feels.

The Pass coach said his squad this week is working to effect a solid blitzing of the SSC quarterback as a defense against the Rock's passing game.

"And we'll certainly be watching for them to be throwing to No. 84 (Rock tight end Freddy Wirstrom)—he's a mighty good receiver, anything gets near him he'll catch it," Wright noted.

Otherwise we will stick with our basic defense, trying odd or even front to see what will work."

On offense, Wright noted, "We may have to throw some, plus we will be utilizing our basic running game—with Horace (quarterback Horace Lizana), Shinall (tail back Shinall Conway) running out of the I, and Vonture at fullback."

"Physically we're in pretty good

shape," the Pass mentor allowed. "John Lizana is still out with a knee problem and we miss him on the line, Tim Murrell is out at fullback with a broken ankle from

"Our boys are up after our win last week. They have found that if we keep on working week after week, success will come. We have had a good week in practice."

the Pearl River Central High game, and tailback Derrick Benoit is doubtful," the coach explained.

Stanislaus coach Vernon Powell reported his Rocks are suffering "a few bumps and bruises."

"But this late in the season, everybody's got some problems—we'll just have to play through a few aches and pains. We have no major injuries, thank goodness," Powell stated.

BIG CROWDS

HATTIESBURG—Saturday night's homecoming crowd of 25,352 was the largest Roberts Stadium crowd since the 1984 Memphis State game that drew 28,831. It also mark-

ed a 4,000-plus increase over the opening Roberts Stadium game this season. The Eagles have played before 282,443 fans in six games this season for an average of 47,240 per game.

"We are hoping this spirit will carry over into the game Friday night at Pass Christian," Powell said.

The SSC coach said he plans no major changes. "We try to give the defense several different looks and offensively we will be working from the I backfield and the split backfield."

After the team's success last week, this is no time for any big changes, Powell feels.

Kickoff in Friday's game at Pirate Stadium on North Street will be at 7:30 p.m.

WITHOUT ADVERTISING EVEN THE BEST IDEAS TAKE AGES TO CATCH ON.

Every now and then, a new product becomes popular by word of mouth alone. But that process usually takes many months. Sometimes years. By then, the company that makes the new product may be in serious trouble—if they're around at all.

Advertising is the surest way to get an idea to the public. By advertising a new product or service, more people are able to try it more quickly than if it were allowed to "catch on" by itself.

Good ideas become popular right away and bad ideas...well, who needs a square wheel, anyway?

PRC basketball opens Georgian era Nov. 10

POPLARVILLE—The Peter Georgian era of Pearl River College basketball will begin at home Monday, Nov. 10.

Georgian, a super successful high school coach at Stone County, took over the reins in mid-September from Lawrence Smithmier, who resigned to take a position with Ole Miss.

"Our players are working hard to learn my techniques of playing basketball," Georgian said. "I'm throwing a lot of things at them at once and this makes it very difficult to be a polished unit."

Last year the Wildcats put together a 14-14 ledger and Georgian is fortunate to have six players returning from that squad. Prentiss's John Walker (6'-2") is the sparkplug coming back for the 'Cats. He was instrumental in PRC's success last year.

The other five sophomores had a lot of playing time last year. Picaune High's Jerry Ellis (6'-3") and Poplarville's Patrick Peters (5'-8") both started regularly. Steve Bankston, (6'-3") and Poplarville's Patrick Peters (5'-9") both started regularly. Steve Bankston, (6'-5") from Holden High in Louisiana and Picaune's John Felder (6'-8") and John Carter (6'-6") from John Ehret in New Orleans will give PRC height and experience.

Georgian said his team will not be as tall as most teams in the league. "But we do have a lot of quickness in all positions and we shoot the ball well from the outside," Georgian said.

The Wildcats have three players from Georgia on the squad. Tom Brown from Jordan High and Maurice Dozier from Central Macon are both 6'-7". Thomas Foster (5'-10") is from Hapeville.

Brown is a McDonald's All American, while Dozier made all-district and all conference and Foster was nominated for all-state.

District stars playing for the Wildcats include Picaune's Adrian

McCray (6'-5½") and Perry Collins (6'-1"). Lumberton's Stanley McGowan (6'-2") and Bay St. Louis' Shane Fjelder (6'-5") round out the '86 Wildcat squad.

"I know the capabilities of our

district players," Georgian said. "I coached against them on several occasions during the last few years."

The Wildcats will open with its own Pearl River Classic on Nov. 10 and 11.

STANISLAUS STUDENT COUNCIL recently sponsored the first annual Brother Aubert Fishing Rodeo on the school pier. The event was open to all SSC students. Brother Aubert, right, presents the overall first-place award to Ryan Jaeger, seventh grade student, who caught the largest fish. Second-place went to Steve

Erickson, a freshman, and third-place was won by Steven Schuff, a seventh grader. Prizes for the rodeo were donated by Kmart of Waveland, Richburg Hardware of Gulfport, Outdoor Sportswear of Gulfport and Al Kingston of Bay St. Louis. (SSC photo)

EAGLES A NATURAL
HATTIESBURG—USM's Golden Eagles apparently enjoy playing on natural surfaces. They are 3-1 in games played on natural grass.

Pirates are next for traveling Eagles

HATTIESBURG—The USM Golden Eagles will hit the road for the sixth time in eight games this season when they travel to Greenville, N.C., to do battle with East Carolina Nov. 1.

The record book shows 11 meetings between the two institutions with the Golden Eagles leading the series by an 8-3 margin. Last season head coach Jim Carmody's club blanked the Pirates by a 27-0 score.

East Carolina all-star candidates include quarterback Ron Jones and receiver Tony Smith for the offense and safety Ellis Dillahunt and linebacker Vinson Smith for the ECU defense.

The Golden Eagles picked up a big homecoming victory over Memphis State and after six games were at the 500 mark. Quarterback Andrew Anderson continues to be the Golden Eagles' leader on offense, while spearheading the defense are linebackers Sidney Coleman and Onesimus Henry.

Saturday's game can be heard on the Golden Eagle Radio Network

Tiger Pride scores superior

The Bay High Tiger Marching Band, under the direction of Miss Lana K. Jones, recently participated in the 18th annual Gulf Coast Marching Festival at Milner Stadium, Gulfport.

Twenty-two bands from Mississippi were judged with Gulfport High's Admiral Band providing an exhibition performance.

Bill Merton was chairman of the festival with judges from Mississippi and Louisiana.

Each band was judged in four areas: (1) playing, balance, volume,

intonation, rhythm, selections, style; (2) marching, alignment, cadence, carriage, discipline, precision; (3) special routines, originality, suitability, taste, variety; (4) general effect, artistry, continuity, showmanship, and appearance.

Bay High won a superior in overall band performance. Craig Adam, drum major, also received a superior as well as the Bay High Drum Line. The Flag Corp received an "Excellent" on their performance.

FOOD BILLS.

NO SPECIALS,
NO DOUBLE COUPONS,
NO GIMMICKS.

Just absolutely lower pricing on every item, every day—to give you the minimum *total food bill*. Every week. To make this possible, Delchamps is taking an important step: We've eliminated weekly specials. This has been a very expensive way to attract more customers. And to make up for it, supermarkets have had to keep all their other prices high.

Instead, the New Delchamps is doing business in a whole new way. With Everyday Minimum Pricing. No games or gimmicks. Just the minimum possible prices to give you the minimum total food bill. It's a bold way to run a supermarket. And we're making it work. For all of us.
